Aastha Lakhanpal

Frontend Developer(React)

PROFESSIONAL SUMMARY

Driven Front-end Developer with a solid understanding of web technologies such as JavaScript, React and Redux. Demonstrates strong problem-solving abilities and a fast learning curve. Committed to delivering high-quality, responsive user interfaces while continuously improving technical skills and collaboration.

PROJECTS

1. BingeBox | |

React | JavaScript | RESTful APIs | HTML5 | CSS3

- Developed a movie app with admin authentication, category filtering, infinite scroll, and full CRUD operations using React, JavaScript, and RESTful APIs.
- Built the front-end with React.js, HTML, and CSS, integrating a REST API for dynamic content rendering.
- Implemented dynamic filtering and infinite scroll to enhance user experience and performance.
- Completed the entire project independently in 3 days, showcasing strong problem-solving skills and self-motivation.

2. Trendify - Fashion E-Commerce Website | |

JavaScript | HTML5 | CSS3 | RESTful APIs |
JSON server

- A responsive web app for discovering and managing trends with secure authentication and dynamic features.
- Implemented user login, real-time updates, and interactive UI.
- Integrated JSON-Server for dynamic rendering and full CRUD operations.
- Added search, filters, and error handling for a smooth experience.
